

# Abeer Shahzad

Flutter Developer | UI Designer | Quick Learner

## About Me

I am an enthusiastic and creative Flutter developer with a strong passion for building clean, functional, and visually appealing mobile applications. Currently pursuing my university education after completing FSC, I have already worked on multiple real-world projects that sharpened my skills in UI design, backend integration, and problem-solving. I thrive in collaborative environments and continuously explore new technologies to deliver impactful digital solutions.

## Experience

### Intern – Software Development (3 Months)

- Developed mobile app prototypes using Flutter and Firebase.
- Implemented user authentication, real-time features, and UI animations.
- Worked closely with mentors to optimize performance and improve user experience.

## Skills

Flutter, Dart, Firebase, Supabase, ZegoCloud, HTML, CSS, JavaScript, UI/UX Design, Website Development, Social Media Management, Graphic Designing, Business Development, Problem Solving, Communication

## Projects

### Professional Chat App

- Real-time messaging with Firebase
- Group chats & authentication
- Smooth UI animations

### Quran App

- Offline access & bookmarking
- Clean and user-friendly interface
- Optimized reading experience
